## TAMILNADU

### Viludhugal (விழுதுகள்)

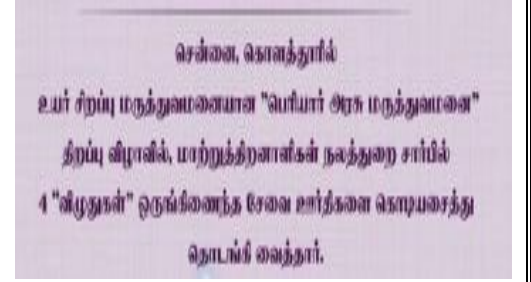

The Tamil Nadu government has flagged off four new service vehicles under the "Vidhudhugal" Integrated Service Vehicles Scheme. The scheme aims to bring government services to the doorsteps of the people.

He also inaugurated the 'Vizhudhugal' Integrated Service Centers set up in Cuddalore, Dharmapuri, Tenkasi and Trichy.

### Objective:

- To provide government services at the doorsteps of the people.
- Especially, to make government services easily accessible to the people living in rural and remote areas.
- Ensure that various government departments work together.

### Services:

- Aadhaar registration and corrections.
- Revenue department services (issuance of certificates).
- Health services (medical examinations, vaccinations).
- Social welfare department services.
- Agriculture department services.

(Coaching for **NATIONAL** S, IPS, IRS etc.)

### Electricity 2025 report – IEA

#### Rapid Electricity Growth:

- Worldwide electricity consumption is surging, with a significant 4.3% increase in 2024 and a projected near 4% annual rise through 2027.

#### China's Dominance:

- China has overtaken the United States and the European Union as the world's largest electricity consumer.

#### Emissions Outlook:

- Global carbon dioxide emissions from electricity generation are expected to level off between 2025 and 2027, despite a 1% increase in 2024.

# CHINMAYA ACADEMY FOR CIVIL SERVICES

## Renewable Energy Expansion:

- Nearly all (95%) of the growing global electricity demand from 2025 to 2027 will be met by renewable energy sources.

## India's Surge:

- India's electricity demand experienced a substantial 5.8% increase in 2024 and is predicted to grow by an average of 6.3% each year from 2025 to 2027.
- India's nuclear energy production saw a significant 13% increase in 2024.
- India is increasing its thermal power capacity, with a projected reach of 283 GW by 2032.

## India's Energy Mix:

- Coal remains the primary energy source in India, accounting for 74% of the power mix in 2024.
- India is expanding its renewable energy sector, with its share of the energy mix expected to rise from 21% in 2024 to 27% by 2027.

## Skill Index 2025

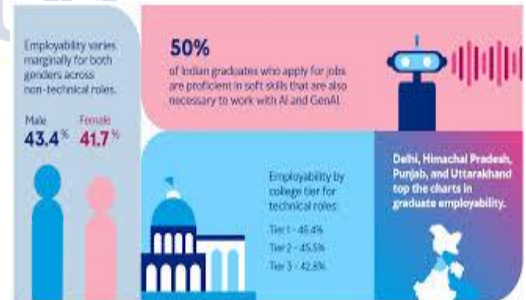

- India's Graduate Skill Index 2025, was released by Mercer-Mettl.

## Indian Graduate Employability Declining:

- A recent report indicates that the employability of Indian graduates has decreased, with only 42.6% considered employable in 2025, down from 44.3% in 2023.
- The primary issue is a growing disconnect between the skills employers seek and the skills graduates possess.

## Employability Variations:

- Graduates from top-tier (Tier-I) colleges exhibit the highest employability rate (48.4%), followed by those from Tier-II (46.1%) and Tier-III (43.4%) institutions.
- Among Indian states, Delhi, Himachal Pradesh, and Punjab demonstrate the highest percentages of employable graduates.

## SCIENCE

## 'Sagar Kavach'

The Indian Coast Guard conducted the 'Sagar Kavach' along the 158 km **West Bengal coast**. The exercise aims to strengthen coastal security and improve coordination among multiple agencies. It tested security measures against threats like kidnapping, smuggling, and IED attacks.
